VOLUME 10

CEO MESSAGE

I have had the pleasure of building WriteBest for the past 25 years with a committed and enthusiastic team. Looking back, I'm very proud of how WriteBest has grown. It hasn't been an easy journey, but with the help of so many people, WriteBest has successfully thrived and got to where we are today.

On behalf of all of us at WriteBest, I would like to extend our gratitude to all customers and suppliers for the continuous support and trust for these many years. This has motivated us to improve faster and further than anyone else.

Every day is a new lesson and a new challenge for us. We can promise that we are not here to be complacent but to strive for continued excellence for the company's future. The next step forward is to achieve the highest level of automation, where we incorporate and integrate technology to help us grow further in the visual communication industry.

I'm confident that WriteBest will soar higher in line with our mission to rise as one with great mutual respect and teamwork in the next generation's leadership. Let's not be afraid to aspire to greatness and continue the WriteBest legacy.

“活到老，学到老” is a saying that has followed me on my journey building WriteBest; to be better and to learn and listen continuously.

Write for future, Best forever.

YONG YOON MING 杨永明
CEO Of WriteBest Group

ABOUT WRITEBEST

With 25 years of experience, WriteBest is a trailblazer in the visual communication industry here in Malaysia. We manufacture and trade in products that include Writing Boards, Notice Boards, and various other Display Boards that are used locally and internationally. Up to date, we have exported to 64 countries worldwide, centring the majority of our export trade to Japan, Australia, United States, United Arab Emirates, Canada and United Kingdom.

We take pride in ensuring our products are of steadfast quality to fulfil our clients' needs and requirements.

WriteBest's long-term and loyal clientele is a huge factor in its success. These long-lasting partnerships are established due to Mr Yong's firm belief in treating everyone from his employees, distributors, suppliers, and customers with respect. At present, WriteBest is recognised as a leading light and the largest whiteboard manufacturing company in Malaysia.

Vision & Mission

We constantly aim to have a pioneer's spirit to ensure we continue to live up to our potential and the market's fast-paced demands. We value and cherish the long-term partnerships we have built over the years, and this serves as the cornerstones in what we do.

Our mission is to provide exceptional service to our partners and clients so that we can continue to grow together.

Values that Matter

Create a Community

We take pride in our relationship with our customers and fulfil their needs while attaining high customer satisfaction and experience. We also work hand-in-hand with our business partners, collaborating to achieve consistent and mutually beneficial long-term growth.

Encourage an Adaptable & Innovative Team

To encourage a corporate culture that enhances teamwork value, mutual trust while constantly motivating each other to achieve the company goals. Mutual respect, an opportunity for ownership and the constant need to be innovative are the cornerstones of how the team operates.

Nurture the Next Generation

WriteBest sees every opportunity, big or small, as a chance to push the boundaries. We believe in nurturing this spirit with a humble and passionate hand, allowing everyone the opportunity to broaden their horizons.

Innovate the Future

We are determined to enter the new age of automation and digitisation to improve productivity and seek more efficient and eco-friendly systems.

Recognition

Since 2005, WriteBest has also received numerous recognitions from Superbrands Status, Golden Bull Awards, Golden Eagle Awards, Asia Pacific Golden Crown Awards and many more. We were also granted a Product Certification License for Vitreous & Porcelain Enamel Coating applied to steel for writing surfaces by SIRIM QAS International Sdn Bhd.

ECO TECHNOLOGIES

Honeycomb Board

WriteBest Writing Boards' core is mostly made with Honeycomb Board as a plywood replacement. Because it is made of 100% recycled paper, the honeycomb board is eco-friendly and biodegradable. Its hollow geometry structure and minimal use of material also make it lightweight, strong, and cost-effective. Honeycomb board has a high impact resistance because its shapes give it a better rigidity and help distribute weight evenly. This makes it as strong as steel, where it can endure pressure and performs better than other standard solid cores.

Eco-friendly

Honeycomb Board is made of 100% recycled paper cores and is bio-degradable.

Strong

Honeycomb Board can endure more pressure and performs better compared to a standard solid core.

Soft Density Fibreboard

WriteBest Notice Boards are made from several materials to achieve a high-quality core for smooth gliding and a fully secure pinned memo. The soft density fibreboard core complies with the Forest Stewardship Council's strict requirements where they endorse environmentally appropriate made products. By using WriteBest Notice Boards, we are making a significant contribution to our climate. Imagine this, each year, one tree could absorb approximately 21KG of carbon dioxide and produce 117KG of oxygen.

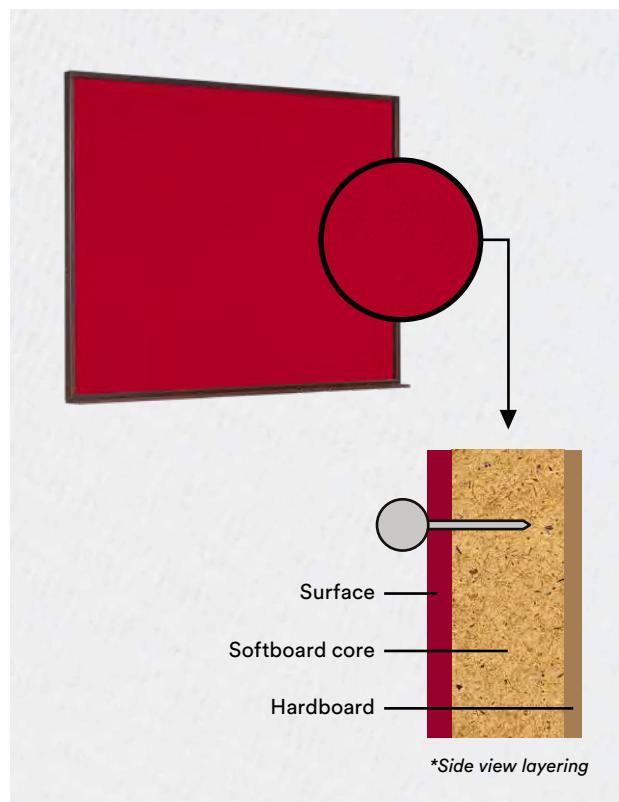

It is part of our responsibility to lead by example to embrace environmentally friendly products and implement eco-friendly technology.

100% Natural Wood Fibre

No glue or other chemicals are used to manufacture the fibreboard, only natural resins contained in the wood act as binding agents.

Biodegradable & Recyclable

Fibreboards are biologically clean and offer an ecologically safe alternative.

e³ CERAMICSTEEL

The Polivision e³ CeramicSteel and Hygienic CeramicSteel is the most popular writing surface for chalkboards and whiteboards, providing superior writability, durability and erasability. The writing surfaces are made for busy offices and boisterous classrooms, providing a super-smooth writing surface that erases like magic and scratch, stain and fade resistant for as long as it is in use - guaranteed.

Made to last, the most popular writing surfaces.

Superior, Sustainable Surfaces

Our whiteboard material is very impermeable. It can be written on with dry-erase, semi-permanent, water-soluble or permanent marker, chalk, pen or crayon without damaging the surface.

Dry erase marker ink can be wiped off easily with a dry cloth or standard eraser, and semi-permanent or permanent marker inks can be removed with a solvent-based cleaner. The ultra-smooth writing surface, which can also be used for projection, enables dry erase markers to glide effortlessly with minimal friction, eliminating ghosting and improving erasability.

Features & Benefits

Good eyecare

- Minimal surface and light distortion
- Enhanced visibility and optimum eye comfort
- Projector friendly

Efficient & easy to use

- Smooth, non-porous writing surface
- Optimum erasability — no staining
- Greater colour contrast

Low maintenance

- Standard and premium colour finishing available
- Colourfast — colour will never fade

Environmental friendly

- Safe and clean:
Cradle to Cradle Certified™ Bronze
- 99.9% recyclable
- No VOCs — releases no harmful chemicals

High resistance

- Scratch, fire, chemical and graffiti resistant
- Inhibits growth or reproduction of bacteria
- Optional Hygienic additive that keeps the surface clean

HYGIENIC CERAMICSTEEL

PolyVision CeramicSteel has been bacteria-resistant since its inception. Thanks to the smooth, non-porous and scratch resistant nature of the surface, there is nowhere for germs to hide.

The all-new Hygienic surface takes CeramicSteel to the next level by incorporating an additive of silver microparticles designed to keep the surface clean.

The surfaces are tested according to ISO 22196:2011 and ISO 21702:2019.

How does Silver Ion technology work?

Silver ions are used in a variety of medical and non-medical products as well as clinically tested skincare products. These silver micro particles slowly release silver ions over time and will actively work to keep the surface clean for the lifetime of the product. This makes it ideal for use in demanding environments where cleanliness is vital.

The Hygienic CeramicSteel surface stays clean and is sanitary making it an ideal application for a variety of public spaces such as schools, workplaces, airports, public restrooms, healthcare facilities and more.

Hygienic CeramicSteel has additional antimicrobial features on top of the features and benefits of standard CeramicSteel.

Antimicrobial Features

- Eliminates bacteria and viruses on the surface within 24 hours
- Odourless and colourless
- Scratch resistant
- Silver particles are safe and non-transferable from the surface
- Lifetime warranty on the surface
- Environmentally safe
- Inorganic, smooth, non-porous surface
- Standard and highly potent cleaning solutions used for disinfecting and sanitizing will not damage the surface or the silver

WHY CHOOSE WRITBEST?

Excellent Service

We are passionate about listening to our customers' needs and believe in going the extra mile as providing exceptional service is our top priority.

Custom-Made Products

We can shoulder any technical creation that would suit our clients' requirements. We take pride in our vast understanding of products and the ability to do it at reasonable prices.

Quality Assured

We are accredited with ISO9001:2000 certified by UKAS Quality Management, ISO 9001:2008 certified by KAS International Certification and Product Certification by SIRIM QAS International.

Efficient & Safe Delivery

We prioritise work orders and planning. This has become essential for us to increase production and service delivery efficiency.

MONO RANGE

Our range has evolved with time.
Mono Range is made to be an impressive
addition to the working space, from
improvements in design to functionality.

MONO FLEXI

Mono Flexi allows you to rotate your presentation from landscape to portrait mode and lets you incline it to a table-like position to allow for adjustable height. This new advancement lets you present according to your preference, whatever it may be.

- Available surfaces:
 - e³ CeramicSteel and Coated Steel
- Large 75mm castor for smooth and easy mobility
- Detachable magnetic pen tray
- Inclusive one (1) unit of Mono Flip Chart Clamp and one (1) unit of Flip Chart Pad

WHITEBOARD SURFACES

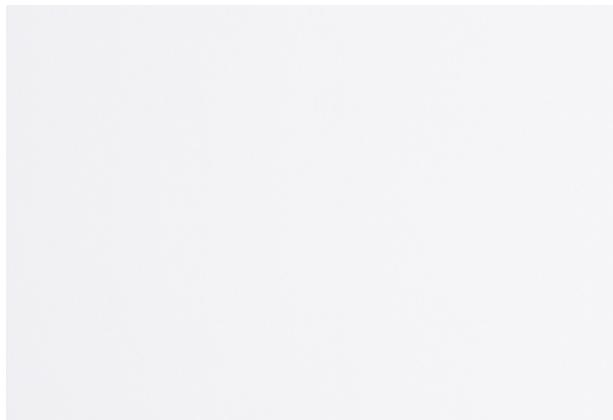

HYGIENIC CERAMICSTEEL MAGNETIC SURFACE

Hygienic CeramicSteel is not only smooth, non-porous and scratch resistant by nature, but it also incorporates an additive of silver microparticles designed to keep the surface clean where it eliminates bacteria and viruses on the surface within 24 hours.

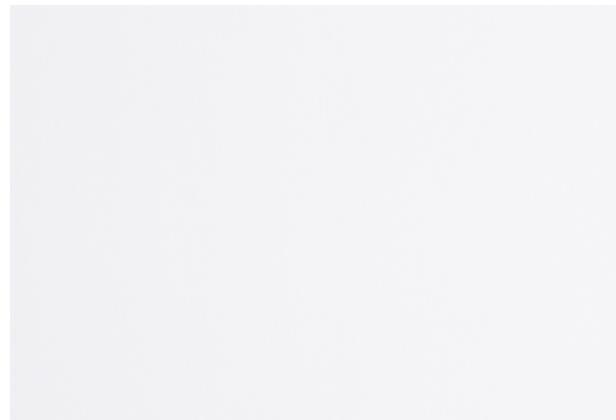

e³ CERAMICSTEEL MAGNETIC SURFACE

CeramicSteel is one of the most durable surfaces combining the best qualities of porcelain enamel and steel. The ultra-smooth writing surface can be used for projection, enabling dry erase markers to glide effortlessly with minimal friction, eliminating ghosting and improving erasability.

COATED STEEL MAGNETIC SURFACE

Coated steel, also known as Pre-Painted Galvanised Steel (PPGI), is a metallic coated steel surface with improved corrosion resistance. Made out of metal surface that enables strong magnetic pull with smooth-writing and easy to clean surface.

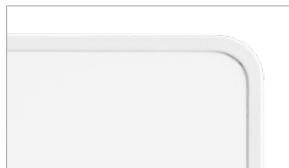

HPL NON-MAGNETIC SURFACE

The HPL surface is non-magnetic and high-gloss, which makes it dry wipe and easy to clean. Made out of nonmetal materials, this is a budget-friendly alternative. It is known for its high durability but easily scratch due to friction.
